

# SAURAV KUMAR

Noida, Uttar Pradesh

☎ +91-7488882379 | ✉ kumar1909saurav@gmail.com | 🔗 LinkedIn | 🐙 GitHub

## Professional Summary

Motivated Full Stack Developer and AI enthusiast with a strong foundation in Data Structures, Algorithms, and the MERN stack. Experienced in building responsive web applications and implementing advanced AI features, including RAG pipelines and Graph-based recommendation systems. Seeking an entry-level Software Development role to contribute to real-world products.

## Technical Skills

- **Languages:** C++, Python, JavaScript
- **Frontend:** HTML5, CSS3, React.js, Tailwind CSS
- **Backend & Databases:** Node.js, Express.js, SQL, MongoDB, RESTful APIs
- **AI/ML & GenAI:** RAG, Vector DB, Graph DB, LangChain, LLMs, ML Basics
- **Tools:** Git, GitHub, VS Code, Postman

## Projects

### AI Movie Recommendation System

*Tech Stack:* Node.js, LangChain, Pinecone(vectorDB), Neo4j (Graph DB), LLMs, React

🐙 GitHub    🔗 Live

- Developed an intelligent recommendation engine using RAG and Graph-based retrieval to provide context-aware movie suggestions.
- Implemented a hybrid search strategy using Pinecone for semantic similarity and Neo4j to map relationships between genres, actors, and directors.
- Integrated LLMs via LangChain to synthesize retrieved data from vector and graph sources into personalized responses.
- Optimized data retrieval by leveraging graph traversals, resulting in more accurate and interconnected movie recommendations.

### Swiggy Clone – Food Delivery Web App

*Tech Stack:* JavaScript, React, Redux Toolkit, Tailwind CSS, Vercel

🐙 GitHub    🔗 Live

- Built a Swiggy-inspired single-page food delivery application with restaurant browsing, menu views, filters, and cart management.
- Implemented client-side routing using React Router with nested routes for restaurant details and in-app search.
- Integrated real Swiggy APIs, handling deeply nested JSON responses, loading states, and client-side veg/non-veg filtering.
- Designed global cart state management using Redux Toolkit with add, increment, and decrement actions across routes.

## Education

**Raj Kumar Goel Institute of Technology**, Ghaziabad, Uttar Pradesh      **2022 – 2026**  
B.Tech in Computer Science Engineering (AI & ML) | CGPA: 7.42

**Teresa International Academy**, Patna, Bihar      **2019 – 2021**  
Senior Secondary Education (CBSE)

**St. Karen's Secondary School**, Patna, Bihar      **2014 – 2019**  
Secondary Education (CBSE)

## Certifications

- Introduction to Generative AI – Microsoft (Apr 2025)
- C++ for C Programmers – Coursera (Dec 2023)

## Achievements

- Solved 200+ problems across coding platforms covering arrays, strings, and linked lists.
- Strong analytical and problem-solving skills with a continuous learning mindset.
